May 28, 2008

Mr. Rene Frigiere
Rue de Hauterive
35600 Redon, FRANCE

Dear Rene:

This is in answer to your inquiry regarding clause 6.2 of ISO 9994, a portion of which reads “or on the consumer product packaging provided for the point of sale”.

The intent of the above phrase is to allow the instructions and warnings to be placed on the display header card provided at the point of sale and to eliminate the necessity of having the instructions and warnings accompany the customer after purchasing the product.

Sincerely,

Edward M. Lewiecki, P.E.
Convenor, ISO/TC61/WG1
Safety Standards for Lighters
